

COMPANY PROFILE 2026

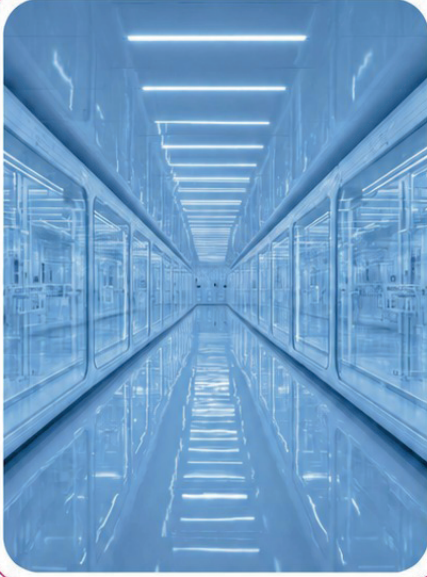

SENU CONSULT

ENGINEERING TOMORROW'S FACILITIES.

FACILITY DESIGN • QUALITY MANAGEMENT • REGULATORY CONSULTING • TECHNICAL DUE DILIGENCE

About Us

In the MENA region's highly regulated industries—Life Sciences, MedTech and beyond—organizations face unprecedented challenges driven by rapid technological advancements and stringent compliance demands. Senu Consult, a UAE-based firm founded by experts with 70+ years of combined experiences, specializes in delivering compliant, future-ready facilities. From WHO-certified generics production plants to advanced vaccines manufacturing sites, we bridge the gap between visionary design and operational excellence.

Our Mission

To empower MENA's regulated industries with end-to-end, GMP-compliant facility solutions that merge regulatory mastery, technical precision, and collaborative partnerships that drive long-term operational success.

Our Vision

To be the MENA region's most trusted consulting partner in perfecting compliant, innovative, and sustainable facilities—from vision to full operational readiness.

MEET OUR BOARD

Dr. Bahaa Fathy

CEO & Technical Partner

Education :

- MBA, Liverpool John Moores University, UK
- B.Sc. in Pharmacy

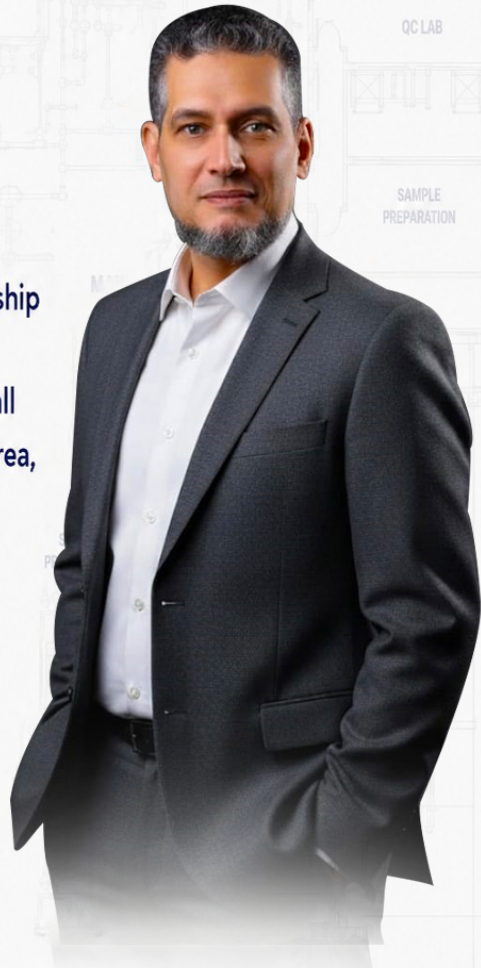

Experience :

With over two decades of international leadership in pharmaceutical manufacturing, Dr. Bahaa excels in driving operational excellence for small & large molecule production across Egypt, S.Korea, Iraq, and Saudi Arabia. Through his career, he spearheaded numerous WHO-compliant projects in both sterile and non-sterile environments, ensuring adherence to U.S. FDA, EMA, and Saudi FDA regulations.

As Technical Partner at Senu Consult, Dr. Bahaa ensures that facility design drives seamless, compliant operations and supports long-term operational competitiveness.

Core Expertise :

- Operational Excellence
- Facility Design & Project Management
- Technology Transfer & Manufacturing Scale-Up

Dr. Nareman Khattab

Governance Partner

Education :

- MBA in Human Resources Governance
- B.Sc. in Business Administration

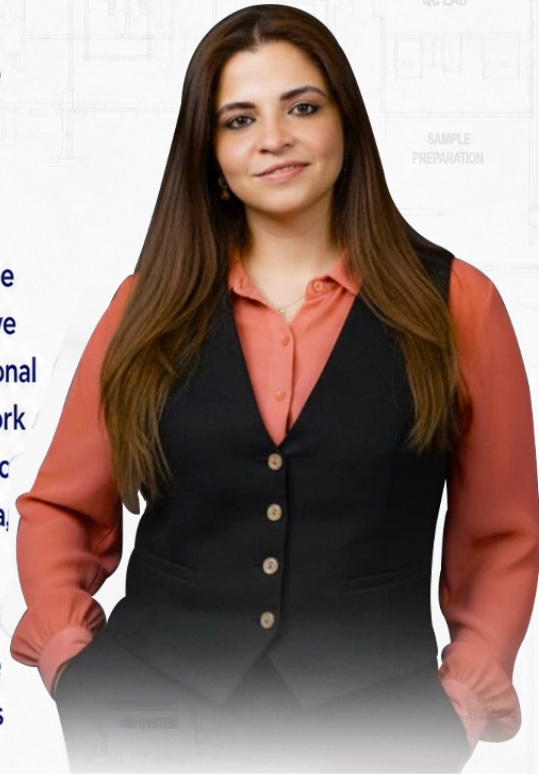

Experience :

With over 20 years of leadership across the MENA region, Dr. Nareman brings extensive expertise in corporate governance, organizational development, human capital strategy, and work spans pharmaceuticals, healthcare, and public sector transformation projects in Saudi Arabia, Egypt, Iraq, and Yemen.

As Governance Partner at Senu Consult, she leads the development of compliant, scalable organizational frameworks—ensuring clients are equipped with governance structures, HR systems, and talent strategies that enable sustainable growth and regulatory readiness

Core Expertise :

- Corporate Governance & Restructuring
- HR Systems
- Digital Transformation

Eng. Ehab H. Edward

Engineering Partner

Education :

- MBA, University of Wales, Cardiff.
- B.Sc. in Mechanical Engineering.

Experience :

With over two decades of engineering leadership in pharmaceutical facility development, Eng. Ehab brings deep expertise in the design, construction, and maintenance of sterile and non-sterile manufacturing environments. He has successfully led multi-site engineering projects across Egypt, Saudi Arabia, Sudan, and Ethiopia, ensuring full alignment with GMP, WHO, and local regulatory requirements. As Engineering Partner at Senu Consult, Ehab oversees all engineering aspects of facility development—ensuring technical soundness, risk mitigation, and efficient project execution from concept to commissioning.

Core Expertise :

- Engineering & Maintenance Systems
- Facility Design & Project Management
- Qualification & Validation

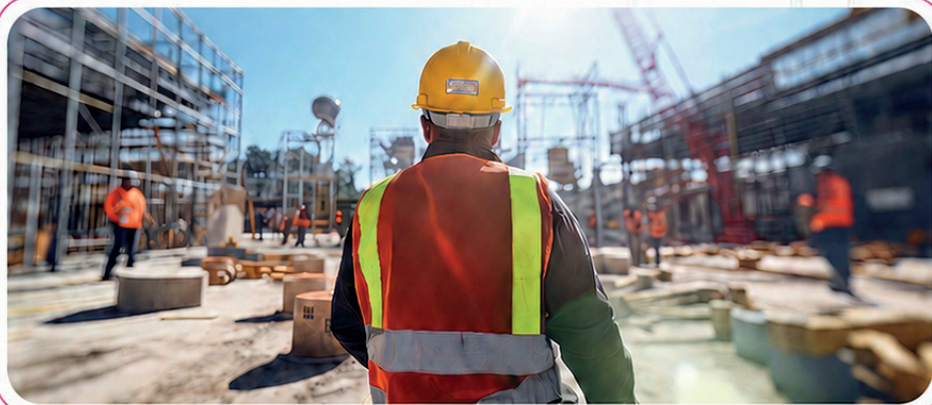

WHAT WE DELIVER

Five integrated solution pillars — engineered around your operational outcome.

1. Facility Design & Project Management

Faster go-lives. Fewer redesigns.

- End-to-end: concept to operational handover
- Design optimization
- CQV: Commissioning, Qualification & Validation

2) Quality Management (SENU Care program)

Confident inspections. Sustained compliance.

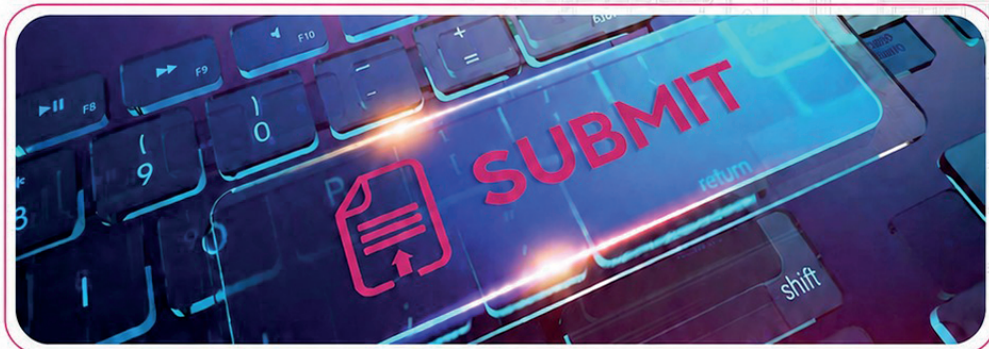

- QMS development and optimization
- Reg. audit preparation: U.S. FDA, EMA, SFDA
- Pharmacovigilance & supplier audit frameworks

3. Regulatory Consulting

Faster market access and Long-term reg. stability.

- Product authorization
- Regulatory Intelligence & Market Access Strategy
- MENA-specific regulatory insights

4. Governance & Org. Development

Empowered teams. Long-term growth. Strategic alignment.

- Corporate governance frameworks
- HR systems & talent architecture
- Bespoke compliance training

5. Facility Due Diligence for Pharma and Healthcare Investors

Enables confident investment decisions through comprehensive technical due diligence.

- Technical Due Diligence
- Engineering, utilities, and maintenance assessment
- Capital expenditure (CAPEX) estimation
- Business continuity and operational risk assessment
- Post-acquisition improvement opportunities

Industries we serve

Pharmaceuticals

MedTech

Vaccines

Veterinary

Cosmetics

Food & Nutrition

**What we deliver isn't just service
it's your competitive edge.**

WHY CHOOSE SENU CONSULT

Fur capabilities no other MENA consultancy combines under one roof.

1- Multi-Regulatory Mastery:

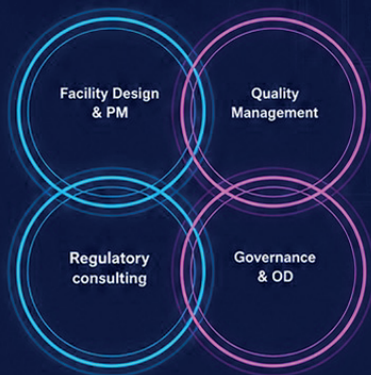

FDA, WHO, EMA and SFDA.

Ability to export to 4 continents

2- E2E Partner, From Vision to Operation

*No coordination cost,
No handover risks.*

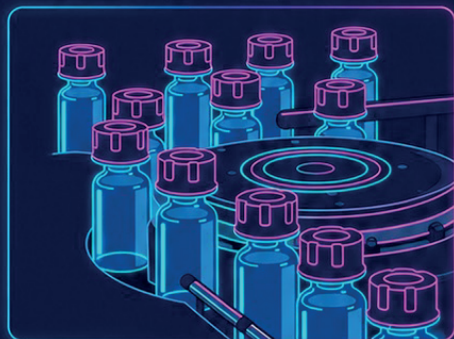

3- Integrated Eng. And Operation Approach

*No design-operation gaps,
Facilities operational from day one*

4- Vaccine Facility Experience: Embryonated egg & tissue culture technologies.

*No waste time in R&D and tech. transfer.
Efficient facility that born operational.*

Partner with us ...

Whether launching cutting-edge manufacturing sites,
upgrading legacy facilities, or preparing for inspections.
